

Description

Szk 318 filing cabinets are designed to store B5 size files. Drawers are divided in two rows, what allows to use every bit of available space. Each row is equipped with a file support (2 supports per drawer), to improve maintaining order in drawers. Szk cabinets meet the requirements of GDPR. They are an optimal choice for archives, reception areas, offices and medical practices where B5-size documents are present.

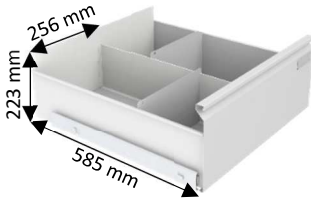

Body of the cabinet made of 0.8 - 1.5 mm thick metal sheet. It is equipped with double extension telescopic ball bearing slides that protect drawers against falling out. They are also equipped with a pull-out block that allows you to open no more than one drawer at a time - this is an additional improve of safety. The maximum load of the drawer is 50 kg. The content of Szk cabinets is secured by a central lock which locks all drawers at the same time.

Product does not need to be assembled, so it gains in strength and stability. They are equipped with levelling feet in scope of 10 mm. Cabinets are available in 16 colours in as a part of our standard offer. Szk cabinets can additionally be assembled with NSzk top cabinets.

To ensure very good surface quality of steel sheet, the zirconium phosphating and zirconium conversion process was used before powder coating. This process ensures adequate corrosion protection for the specified environment and guarantees high adhesion for the powder coating.

By buying our product you support ecology, as cabinets made of metal are more durable than furniture made of other materials - you can easily repair, repaint or simply recycle them. Our factory is powered by solar energy, significantly reducing CO2 emission, in addition, more than 90% of waste powder paint after recycling goes back into production.

Description of markings

5-year warranty shows that we are confident in our products due to high quality workmanship and reliability. We want you to feel safe and satisfied with working with us.

PZH approval is granted for a product that does not in any way adversely affect health or the environment.

We offer 16 RAL colours as standard. Thanks to this our furniture can be matched to any interior.

ISO certification confirms compliance with standards and the high quality of products and services we offer.

Zircon technology provides very good corrosion protection for our products. In addition, this process improves paint adhesion.

We test our products in our own laboratory, the Centre for Research and Development (CBR).
