

Description

Laptop trolley with battery charging function is used to store and easily transport laptops. It works perfectly in schools, universities, libraries or conference rooms, i.e. wherever there is a need to safely store and charge laptops at the same time. The contents of the cabinets are protected by reinforced doors equipped with 2 points lock. Moving the trolley is possible thanks to 4 swivel wheels (including 2 with a lock) and handles on the sides of the device. WNL trolleys can store and charge from 10 to 30 laptops at the same time. Safety during charging is ensured by a fuse and a sequential charging module. Perforation on the stroller housing ensures proper air circulation inside. The trolley is covered with an 18 mm chipboard top, available in 6 colors of veneer. Trolleys available as standard in 16 RAL colors. The offer includes sockets of various European types, including national sockets, Schucko and USB sockets.

Features

WNL +

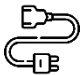

- 5-year warranty (according to the warranty conditions for Malow products).
- Trolley made of 0.8 - 2 mm metal sheet.
- Trolleys adapted to store and charge laptops thanks to 230 V sockets by each compartment.

Additional equipment

	Surge protection and router/switch sockets allow easy network connection and provide surge protection to protect the equipment stored inside.
	The router hidden under the countertop is the perfect solution for people who value aesthetics and functionality. Thanks to the access point and LAN, WAN and USB sockets, it is possible to create or extend an Internet network in a simple and convenient way. Without visible cables and devices, you get not only fast internet, but also an elegant and tidy interior.
	The trolleys are equipped with 1 LAN switch with RJ45 ports per column. The switch enables quick and trouble-free connection of devices to the network.
	Thanks to the detachable cable, the WNL+ cabinet is not only convenient to store and transport, but also more functional. You can easily replace the cable if the original one is damaged or a longer one is needed.

Marks description

	5-year warranty shows that we are confident in our products due to high quality workmanship and reliability. We want you to feel safe and satisfied with working with us.		ISO certification confirms compliance with standards and the high quality of products and services we offer.
	PZH approval is granted for a product that does not in any way adversely affect health or the environment.		Zircon technology provides very good corrosion protection for our products. In addition, this process improves paint adhesion.
	We offer 16 RAL colours as standard. Thanks to this our furniture can be matched to any interior.		We test our products in our own laboratory, the Centre for Research and Development (CBR).
	This product complies with European Union safety, health and environmental requirements.
