

Description

Lockers placed on bases make it easier to use and keep clean and are additionally protected against corrosion and mechanical damage. The bases give extra space to sit down and change shoes or clothes. A shoe shelf is available for each base model.

The legs of the base with feet are height-adjustable in the range of 0 - 10 mm. It allow you to level the locker on an uneven floor. The bases are delivered with a set of screws for self-assembly. The welded construction is more stable and durable. They fit lockers 300 to 1200 mm wide and 500 mm deep.

The seat is made of wooden slats, lacquered with clear varnish. That helps to keep clean and additionally protects against moisture.

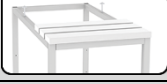

Features

Name	P 421 W	P 331 W	P 431 W
Code	PWSU 02010203	PWSU 01010303	PWSU 02010303
Dimensions (H x W x D)	390 x 790 x 745 mm	390 x 890 x 745 mm	390 x 1190 x 745 mm
Available options:			
	Base for lockers with a extendable seat made of wooden slats varnished with colourless varnish.		
	Base for lockers without a seat, with the possibility of installing a shoe shelf.		
	Possibility to use PVC slats instead of wooden slats.		
	Perforated shoe shelves allow you to place your shoes under the locker. Shoes left on the shelf dry faster and help keep the inside of the wardrobe clean.		

Description of markings

The 5-year warranty proves that we are confident in our products due to the high quality of execution and their reliability. We want you to feel safe and be satisfied with the cooperation with us.

The ISO certificate confirms compliance with standards and the high quality of products and services we offer.

We offer 16 colors from the RAL palette - as standard. Therefore our furniture fits to any interior

The use of zirconium coating technology provides a very good protection against corrosion. Additionally, this process improves paint adhesion

We test lockers in our own laboratory, the Research and Development Centre (CBR). This ensures that the tests are comprehensive and carried out correctly.
