

MPO METAL RECYCLING BIN

Description

MPOs are universal, durable and solid containers for waste segregation. MPOs enable the segregation of various types of waste: plastic, paper, glass, bio, light bulbs, caps and batteries. The containers have self-closing lids, that prevent coming out the unpleasant odours.

The equipment depends on the model, is adapted to hanging bags or galvanized metal bins. The version with a extendable frame placed on full-extension slides allows hanging 120-litre disposal bags. The version with bins, which each have a capacity of 70 litres. Galvanization protects bins against corrosion.

MPO containers with small waste bins allow for safe segregation of caps, batteries, bulbs and others. All models have adjustable feet that help to place the containers firmly on an uneven floor.

MPO containers are used in shops, warehouses and warehouses as well as utility rooms. As standard, the containers are available in 16 colors at no extra charge.

Description of markings

The 5-year warranty proves that we are confident in our products due to the high quality of execution and their reliability. We want you to feel safe and be satisfied with the cooperation with us.

The ISO certificate confirms compliance with standards and the high quality of products and services we offer.

We offer 16 colors from the RAL palette - as standard. Therefore our furniture fits to any interior.

The use of zirconium coating technology provides a very good protection against corrosion. Additionally, this process improves paint adhesion.

PZH hygienic certificate is granted for a product that does not adversely affect human health and the natural environment.

We test lockers in our own laboratory, the Research and Development Center (CBR). This ensures that the tests are comprehensive and carried out correctly.
