

Description

Szk filing cabinets are designed to keep A5 documents organised and easy to manage. Drawers, depending on their type, allow to store files horizontally or vertically. Inner space of drawers is divided into rows, with use of partition walls, that allow to keep order even of large number of documents. Szk cabinets meet requirements of GDPR. They are an optimal choice for archives, reception areas, offices and medical practices where A5-size documents are present.

Body of the cabinet made of 0.8 - 1.5 mm thick metal sheet. It is equipped with double extension telescopic ball bearing slides that protect drawers against falling out. They are also equipped with a pull-out block that allows you to open no more than one drawer at a time - this is an additional improve of safety. The maximum load of the drawer is 50 kg. The content of Szk cabinets is secured by a central lock which locks all drawers at the same time.

Product does not need to be assembled, so it gains in strength and stability. They are equipped with levelling feet in scope of 10 mm. Cabinets are available in 16 colours in as a part of our standard offer. Szk cabinets can additionally be assembled with NSzk top cabinets.

To ensure very good surface quality of steel sheet, the zirconium phosphating and zirconium conversion process was used before powder coating. This process ensures adequate corrosion protection for the specified environment and guarantees high adhesion for the powder coating.

By buying our product you support ecology, as cabinets made of metal are more durable than furniture made of other materials - you can easily repair, repaint or simply recycle them. Our factory is powered by solar energy, significantly reducing CO2 emission, in addition, more than 90% of waste powder paint after recycling goes back into production.

Characteristics
