

## Description

A laptop cabinet with a battery charging function is used for storing and charging laptops. It works perfectly in schools, universities, libraries, or conference rooms, i.e. wherever there is a need for safe storage and charging of laptops at the same time. The cabinet has 10 compartments, and each compartment is protected by a door equipped with a lock. Each compartment is equipped with a 230 V electric socket or other, e.g. USB. The furniture does not require assembly, so it gains strength and stability. Safety during charging is ensured by a fuse. Trolleys are available in 16 RAL colours in standard. The cabinets have five-year guarantee! In the first period (24 months), the Guarantor is responsible for all manufacturing defects of the product. In the remaining period (36 months), the Guarantor is responsible for the functional properties of the product, such as the varnish coat and durability of connections of the product elements (welding).

## Features

- 5-year warranty (according to the terms of Malow products warranty)
- Body made of 1 - 1.2 mm metal sheet, door made of 2 mm metal sheet.
- The cabinet allows you to load and store up to 10 laptops at a time, each in a separately locked compartment.
- Cabinets are suitable for storing and charging laptops thanks to 230 V sockets in each locker.
- The compartment's doors are closed with a safety lock with a 1-point blockade.
- Holes in the body allow fix together cabinets.
- The cabinet is also available without electrical connections.
- Powder coated furniture, construction available in 16 RAL colours in standard.

A lock with two keys secures the contents of each compartment

A 230 V or USB socket in each box allows you to charge your devices

## Marks description

5-year warranty shows that we are confident in our products due to high quality workmanship and reliability. We want you to feel safe and satisfied with working with us.

ISO certification confirms compliance with standards and the high quality of products and services we offer.

PZH approval is granted for a product that does not in any way adversely affect health or the environment.

Zircon technology provides very good corrosion protection for our products. In addition, this process improves paint adhesion.

We offer 16 RAL colours as standard. Thanks to this our furniture can be matched to any interior.

We test our products in our own laboratory, the Centre for Research and Development (CBR).
